## About the Directory

**Coverage of the Directory:** The 1<sup>st</sup> edition of the “Directory of Library and Information Science Teachers in India” includes official address of 286 Library and Information Science teachers working in India. In the 2<sup>nd</sup> edition, it include the official as well as residential address of 369 Library and Information Science Teachers in India.

For the purpose of the directory, we define a teacher as a person who is actively involved in teaching to fulfil the need of a course that forms a part of their opted certificate / diploma / bachelor degree / master degree / research level programme in Library and Information Science. So, in simple Library and Information Science Teachers who are working on permanent basis or contractual (full time) or ad-hoc (full time) basis in any institute / organization in India are included in this directory. The retired teachers are also included under the name of the institute from which they retired.

**Development of the Directory:** To develop the directory an online data capture form was developed by using Google Form. The form is circulated among 20,128 Library and Information Science (LIS) professionals by using the facility of broadcast message of the LIS Links (<http://www.lislinks.com>) social networking platform. The form is also circulated to the LIS professionals by using general social networking site like Facebook and subject specific mailing list in India. The data collected through the form are verified by going through the institutional / organizational websites of the respective institute / organization. In the event of any confusion, a clarification was sought through Email and Phone calls to the person who submit his/her details for inclusion in the “Directory of Library and Information Science Teachers in India”.

**Ways to Include Your Name in the Directory:** The Directory is developed based on voluntary participation of the Library and Information Science professionals. So, if your name is dropped from the directory it means you have not submitted your own data to us. However, if you are still interested, you can include your name in the next edition of the directory by replying to us through our data capture form available at <https://bit.ly/2PqjKhq> (kindly note that the web address is case sensitive).

In the directory, if you don't find a name of a teacher in Library and Information Science, in your view who otherwise should be included, then kindly forward the above website address of data capture form by way of Email to that person requesting him/her to submit his/her data.

**Ways of Using the Directory:** All the entries in the directory are arranged in the alphabetical order considering the forename first. As far as possible we tried to provide the full forename but when it was not available, it is listed in the abbreviated form. To ease the retrieval process, the institute-wise index is provided in the last portion of the directory that will direct the user to the serial number in the alphabetical list of teachers in the directory. In the institute-wise index, the organizations / institutes are listed under the most generally acceptable format. For example, if you are looking for the “University of Gauhati” it is listed as “Gauhati University”.

**Contents****Alphabetical List of Teachers (Forename-Wise)**
